Reinforced Welded Door Frame

Independence Flagpoles are engineered with an inset reinforced aluminum door frame welded into the precision cut door opening, providing additional strength and higher max wind speeds from each butt diameter/wall thickness combination. The efficiency of this design produces maximum strength-to-size ratios while providing a smooth, flush fitting door, making Independence IRW flagpoles the ideal choice in many applications. **For additional Winch option flagpoles, see Titan IWW Flush Mount Hinged Door Design (Page 30) and Sovereignty ISW Raised Reinforced Door Frame (Page 32).**
